

Obsolete Link / Obsolete Software Version

The version of Pure Vinyl referenced from the website where you clicked to download Pure Vinyl is not the current version. A later version is available.

Please download the latest version of Pure Vinyl from the official Channel D download page:

<http://www.virtual-vinyl.com>

or

<http://www.channld.com/pure-vinyl.html>

Just click on the Download and Purchase Pure Vinyl link at the top of the page to download a free demo version.

This happened because many software update - type websites aren't always diligent in keeping their links updated. Only the Channel D website is guaranteed to always have the latest version. We are sorry for any inconvenience.

Thank you,

Channel D Support
